About the role

- Develop responsive and user-friendly web interfaces based on design mockups and wireframes.
- Collaborate with UI/UX designers and backend developers to bridge the gap between design and technical implementation.
- Optimize application performance for maximum speed and scalability.
- Ensure cross-browser and cross-device compatibility by conducting thorough testing and debugging.
- Implement and maintain frontend build pipelines and automation tools.
- Stay updated on emerging frontend technologies and best practices.
- Troubleshoot and resolve frontend-related issues as they arise.

Requirements

- Bachelor's or Master's degree in Computer Science, Engineering, or a related field.
- Proven experience of 0 – 3 years as a Frontend Developer, with a strong portfolio showcasing your coding skills.
- Proficiency in HTML, CSS, and JavaScript, with experience in modern frontend frameworks such as React, Angular.
- Solid understanding of responsive design principles and mobile-first development.
- Experience with version control systems (e.g., Git) and frontend build tools (e.g., Webpack, Gulp).
- Strong problem-solving skills and attention to detail.
